Firstly, he suggested that strict enforcement of traffic rules should be done by traffic authorities so that the present chaotic traffic scenario on the city roads is removed. Secondly, he suggested to make some areas as "No Traffic Zones" by pedestrianizing some of the congested bazaars of Jammu city. This way Urban Mobility in these areas will increase. Lastly, he suggested that no permission should be granted for construction of any shopping mall or banquet hall unless they have sufficient space for parking within their premises.
