

We at the Institution of Engineers (India) Jammu Local center envisioned that for an outstanding institution to be created, it must start by kindling the fire of true knowledge and passion for excellence in young hearts and minds.

We aspire to attain global standards by way of fast track growth by gradually adding as much as value as possible to our members.

We believe that 'quest for quality' is a never ending process. The more one attains quality parameters, the more widens the demand for the same. We always endeavor to meet the growing needs of higher technical education by adopting new technologies, providing resources and by developing positive attitudes.

We always welcome and quickly respond to new suggestions and innovative ideas to upgrade the quality of your experience in the institution. Whatever shortcoming we may have today, we are at work in unison to ensure an incredible value addition during our tenure.

At the same time, we are also confident to ensure that the members of our institution will feel proud of this coveted place in the days ahead of us. My best wishes to the members who have reposed faith in us.

Er. Sachin Tickoo, MIE
Honorary Secretary
